

BERMUDA GOVERNMENT
L.F. WADE INTERNATIONAL AIRPORT

ADVISORY CIRCULAR

TO: Distribution
FROM: Mr. Aaron Adderley, Airport General Manager
DATE: July 15th 2011
SUBJECT: **Aircraft Arrivals/Departures during Unmanned Hours**

Pursuant to mandated regulatory requirements as set forth in the Aerodrome Certification for the Bermuda L.F. Wade International Airport (BDA), which dictate that both Air Traffic Control (ATC) and Aircraft Rescue and Fire Fighting (ARFF) resources be readily available at all times whilst an international aerodrome is open for operation during manned hours, the Department of Airport Operations (DAO) shall implement a new operational policy as sanctioned by the Department of Civil Aviation, governing flight activities during unmanned hours.

All **Scheduled Commercial Carriers** will continue to be afforded the normal ATC and ARFF services to meet their landing and take-off requirements at no additional charge. All unscheduled carriers/operators requiring the utilization of the Aerodrome between the unmanned hours of 2300 hours local and 0700 hours local shall make prior application for approval from the DAO at least 24 hours prior to the planned date of flight and be in receipt of said approval before commencement of flight.

Accordingly, all unscheduled carriers/operators should be apprised of the prevailing rate of charges that are herein attached under the Prior Permission Request (PPR) Application Form, for all ARFF responses during unmanned hours.

Distribution:

Mr. Kenneth Wainwright- AA
